

EDAMA Association

Energy Water & Environment

Our mission

To maximize the business viability and potential in the Energy, Water and Environment sectors. We do so to enable the growth and maturation of a resilient private sector that plays a leadership role in securing Jordan's energy and water independence, and conserving Jordan's environment

Our Vision

We envision Jordan as the regional hub and successful model for green growth. EDAMA is a business association recognized for creating a thriving green economy, where businesses are empowered to play a leadership role in transforming Jordan's energy, water, and environment systems.

About EDAMA

- EDAMA in Arabic means “sustainability”.
- A Jordanian NGO established in 2009 as a Business Association
- We are here to cultivate an environment to encourage innovative solutions for energy water independence and environmental conservation.

EDAMA's Main Pillars

Capacity Building

- We bridge the skills and competencies gap in the Energy, Water and Environment sectors
- In the past decade 50 trainings and 17 workshops and seminars were conducted to serve the sector
- We offer internationally accredited courses and partnerships with academic institutions and vocational training centers

Projects
