

Carbon Pricing to Foster the Clean Energy Transitions: focus on domestic markets and Article 6 implementation

Wednesday, 16 November 2022, 14:00-16:00 (GMT+2), Korea Pavilion

The energy sector is experiencing first truly global energy crisis. Concerns about energy prices and affordability dominate all policy discussions. Even in these challenging times, interest in carbon pricing and Article 6 of the Paris agreement remains high. Carbon pricing, including Article 6 of the Paris Agreement, can be a key element within broader climate and energy policy instruments to help foster the clean energy transitions. International cooperation is a top priority to ensure that countries meet the global net zero goal by mid-century.

In this side event, high-level representatives and technical experts from the Korea Environment Corporation (K-eco), the International Energy Agency (IEA), the International Carbon Action Partnership (ICAP) and the Asian Development Bank (ADB) will convene a discussion with carbon markets and Article 6 experts on the current state and trends of clean energy transitions, and the role that domestic carbon markets and Article 6 could play to accelerate the transitions.

Agenda

14h00 – 14h10	Opening ceremony <ul style="list-style-type: none">• Congratulatory remarks:<ul style="list-style-type: none">• H.E. Dr. Wha-jin HAN, Minister of Environment of the ROK• Mary Warlick, Deputy Executive Director, IEA• Opening remarks: Dr. Byungok AHN, CEO of K-eco
14h10 – 14h20	Keynote Remarks <ul style="list-style-type: none">• Bruno Carrasco, Director General concurrently Chief Compliance Officer, Sustainable Development and Climate Change Department, ADB• Dirk Weinreich, Co-chair of ICAP and Head of Division, Climate Legislation and Emissions Trading, Federal Ministry for Economic Affairs & Climate Action, Germany
14h20 – 14h50	Scene-setting Presentations <ul style="list-style-type: none">• “Emissions Trading Systems in the Asia-Pacific”, Stefano De Clara, Head of ICAP Secretariat• “Carbon Pricing to Foster Energy Transition & Decarbonization”, VK Duggal, Principal Climate Change Specialist, ADB• “Experience of Korea with implementing international cooperation under Article 6”, Seoyoung Lim, Deputy General Manager, Department of Carbon Neutrality, K-eco
14h50 – 15h50	Panel discussion <p><i>Moderator: Luca Lo Re, International Climate Policy Analyst, Energy and Environment Division, IEA</i></p> <ul style="list-style-type: none">• David Newell, International Climate Policy Advisor and Negotiator, Government of Sweden• Jacqueline Ruesga, International Climate Policy Advisor and Negotiator, Ministry for the Environment, New Zealand

- Mischa Classen, Director Carbon Procurement, KliK Foundation (Switzerland)
- Naoki Matsuo, Principal Policy Researcher, IGES (Japan)
- Rui Yun GAN, Senior Manager, Global Partnership, National Climate Change Secretariat, Singapore

15h50 – 16h00

Closing remarks
