On page 121,

For example, the Canadian government announced in 2024 that its Greener Homes Initiative, which provides grants and loans for energy upgrades, will evolve into a new Greener Homes Affordability Program that specifically targets low- to median-income households.

The government announced almost USD 800 million in funding for energy efficiency retrofits in these households.

Replace by

For example, the Greener Homes Initiative in Canada provides grants and loans for energy upgrades. In addition, the government announced in 2024 that they will launch a new Canada Greener Homes Affordability Program that specifically targets low- to median-income households."

This should be changed to "The government announced almost USD 600 million in funding for energy efficiency retrofits in these households.
