

Corrigendum: Financing Clean Energy in Africa

Issued: 5 Sept 2023

Link to report: <https://iea.blob.core.windows.net/assets/5afce034-9bd7-451a-ac36-1b35c63aaf5e/FinancingCleanEnergyinAfrica.pdf>

On page 19: Change 9% to 7%

- Many African state-owned utilities struggle with poor financial health and high systems losses, which averaged 15% across the continent in 2020 compared with the global average of **9%**. **[should be 7%]**

This was calculated incorrectly in the NiT file and so we missed this error. In the Portuguese version of the Executive Summary, this text has already been corrected to 7%
