CHART 1

Gross consumption of natural gas by OECD region

Total OECD indigenous production of natural gas decreased by 3.8% in June 2020 compared to June 2019, with decreases in all OECD regions. The decrease was led by the OECD Americas (-2.0% y-o-y¹), where production in the United States fell by 3.1% on a year-on-year basis. Production also declined in OECD Europe (-9.8% y-o-y) and OECD Asia Oceania (-7.9% y-o-y). Overall, total OECD indigenous production of natural gas increased by 0.6% in the first six months of 2020 compared to the same period of 2019.

Total OECD imports (entries)² of natural gas declined by 8.0% in June 2020 on a year-on-year basis. This trend was also observed across all OECD regions, with the decrease being led by OECD Europe (-7.8% y-o-y) and followed by OECD Asia Oceania (-7.6% y-o-y) and the OECD Americas (-9.4% y-o-y). In terms of pipeline and LNG split, decreases in both LNG (-9.5% y-o-y) and pipeline (-7.5% y-o-y) imports were observed in the total OECD.

Total OECD exports (exits)² of natural gas decreased by 3.8% in June 2020 compared to June 2019, a trend that was again observed across all OECD regions. The largest decrease was registered in the OECD Americas (-7.2% y-o-y), where exports declined in both the United States (-6.0% y-o-y) and Canada (-9.2% y-o-y). Decreases in exports were also observed in OECD Europe (-1.9% y-o-y) and OECD Asia Oceania (-6.2% y-o-y). Total OECD exports of LNG decreased by 8.1% y-o-y, while pipeline exports decreased by 2.7% y-o-y.

Total OECD gross consumption of natural gas decreased by 0.4% in June 2020 compared to the same month last year. Consumption declined in OECD Asia Oceania (-7.7% y-o-y), driven by decreases in Japan (-9.2% y-o-y), Australia (-9.7% y-o-y) and Korea (-3.4% y-o-y). Meanwhile, consumption grew in the OECD Americas (+0.8% y-o-y) and OECD Europe (+1.3% y-o-y), with growth observed in the United States (+0.9% y-o-y) and Germany (+24.2% y-o-y), respectively. Overall, total OECD gross consumption of natural gas decreased by 3.6% in the first half of 2020 compared to the same period last year.

1. Year-on-year (y-o-y) change over corresponding month of previous year.

2. Transit volumes are included. Trade amounts include intra-regional trade.

CHART 2

Indigenous production of natural gas by OECD region

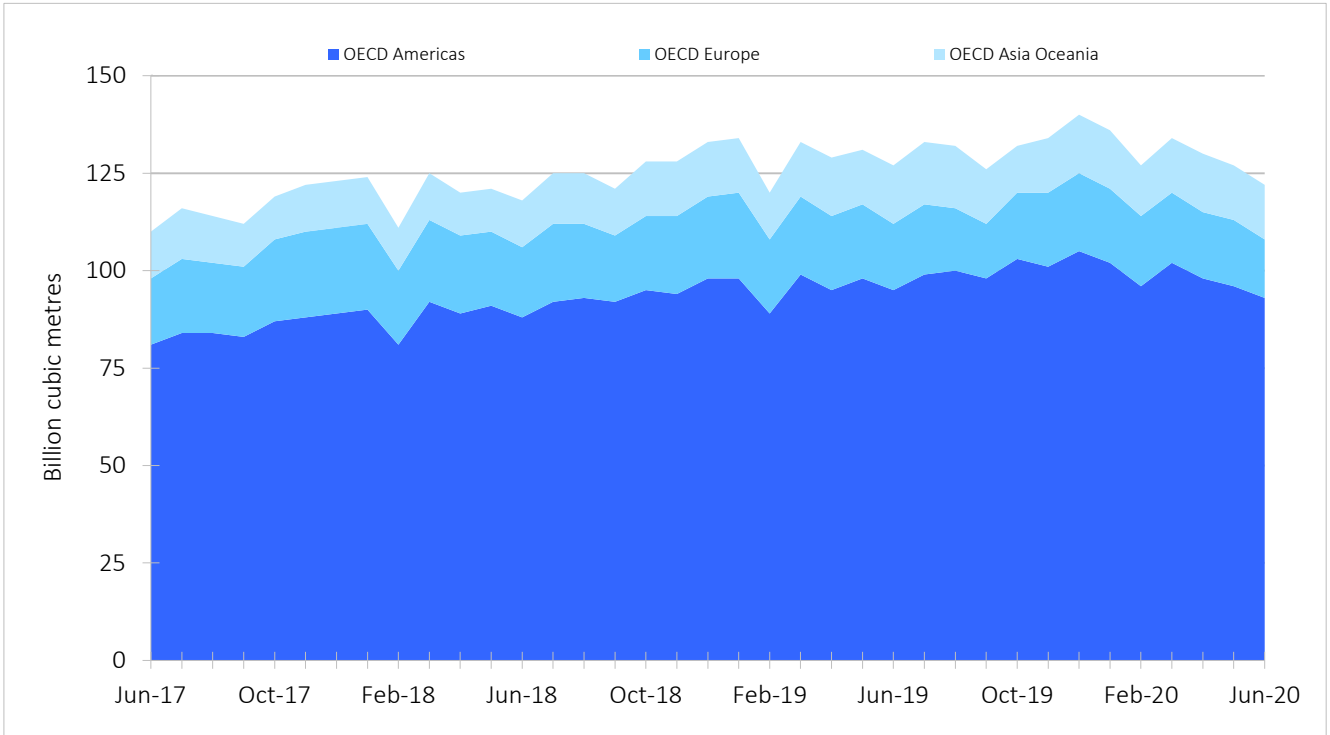

CHART 3

Net trade of natural gas by OECD region¹

1. Trade amounts include intra-regional trade.

NOTES

Please note that all IEA data are subject to the following Terms and Conditions found on the IEA's website:
<http://www.iea.org/t&c/termsandconditions/>

1) ESTIMATED DATA

Due to the absence of official data, the following data have been estimated:

Israel January 2010 to June 2020

2) COUNTRY NOTES

- A General Note Starting with January 2011 data, the Imports and Exports no longer represent ultimate origins and destinations but are replaced by Entries and Exits corresponding the amounts that physically crossed the national boundaries of the country.
- Australia The breakdown of export destinations is estimated by the IEA on the basis of OECD imports of natural gas from Australia.
- Austria Most recent data are the best estimates from the Austrian national administration, based on available preliminary data. Data are usually finalised within three months following the first publication.
- Belgium Most recent data on origins of imports and final destinations of exports of LNG are the best estimates from the Belgian Administration based on available preliminary data.
- Canada Data for Canada are submitted by the Department of Natural Resources (Natural Resources Canada, or NRCan), based on actual and preliminary data from Canada's national statistical agency (Statistics Canada) and various other sources. In cases where data from these sources are unavailable, estimates are conducted by NRCan, based on information available at the time, including alternative sources. Data are usually finalised within three months of the first publication. An important source for any differences between data published by Statistics Canada and data published by the IEA is data estimated by NRCan or the IEA Secretariat.
- Finland Finland is reporting stock levels as of January 2019. Therefore, there is a break in stock levels between December 2018 and January 2019.
- Iceland There is no natural gas data for Iceland, as there is neither production nor consumption.
- Israel The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law. Information is based on data published by the Ministry of Energy and Water Resources as well as the Central Bureau of Statistics.
- Mexico Observed gross inland deliveries of natural gas from January 2013 onwards are estimated.
- Netherlands Starting with January 2019, more complete trade data is reported based on better information from the GATE terminal. Revisions for historical series are pending.
- United Kingdom Exits to the Isle of Man are reported under Non-specified/Other.
- There is a break in stocks between March and April 2019 due to inclusion of stock held at LNG terminals.
