

**Corrigendum:** The Future of Cooling in Southeast Asia

**Issued:** 18 November 2019

**Link to report:** <https://www.iea.org/reports/the-future-of-cooling-in-southeast-asia>

---

On all pages, the **footer** has been changed from "ASEAN" into "Southeast Asia".

On page 2, the words "**business as usual scenario**" have been removed, as STEPS includes some pretty far-reaching commitments, including net zero aspirations in some cases:

"A Stated Policies Scenario (STEPS) assumes existing policy frameworks and ambitions together with the continued evolution of known technologies – essentially a business as usual scenario."
