

## **Role of domestic carbon pricing policies, Article 6 and international co-operation to reach Paris Agreement mitigation goal**

Wednesday, 4 Dec 2019, 16:00-17:15, Korea Pavilion

### **Description**

In this Side-Event, South Korean and international technical experts and Article 6 negotiators will discuss the interaction and role of domestic carbon pricing policies, Article 6 and international co-operation to reach the Paris Agreement climate mitigation goals. In particular, discussions will be focused on how the South Korean ETS and Article 6 can play a role in supporting the country's NDC target to reduce emissions by 37% from the BAU level by 2030.

### **Agenda**

#### **16:00 Introduction**

- Kelley Kizzier (EDF)

#### **16:05 Carbon pricing, the energy transition and Article 6 of the Paris Agreement**

- Luca Lo Re (IEA)

#### **16:15 Progress and key issues in Article 6 negotiations**

- Seoyoung Lim (Korean Environment Corporation (K-eco))

#### **16:25 The Korean ETS, CDM transition and Article 6**

- Axel Michaelowa (Perspectives Climate Group)

#### **16:35 The potential of Article 6 to reduce costs and enhance ambition – what are the perspectives for South Korea?**

- Dirk Forrister (IETA)

#### **16:45-17:10 Moderated discussion and Q&A with the speakers**

### **Key Questions:**

1. How can effective carbon pricing help South Korea to meet its NDC goals?
2. How to ensure environmental integrity in carbon markets?

### **Panellists:**

- Mr. Luca Lo Re, Climate Policy Analyst, International Energy Agency (IEA)
- Ms. Seoyoung Lim, Manager, Dept. of Climate Change Action, Korean Environment Corporation (K-eco)
- Mr. Axel Michaelowa, Director, Perspectives Climate Group
- Mr. Dirk Forrister, President and Chief Executive Officer, IETA - tbc

#### **17:15 Closing remarks from moderator and organisers**
