

# World Energy Investment 2023 China Report Launch

Wednesday 20 September 2023 09:30 – 11:00 Paris time; 15:30 – 17:00 Beijing time

Zoom platform registration link: https://meetoecd1.zoom.us/webinar/register/WN\_iDli6xxMRCe2QIYSu

In-person participation registration link: https://wj.qq.com/s2/13111214/0900/

Livestream link (on the WeChat platform):

Working language: Chinese and English with simultaneous interpretation

nternational Energy Agency

### Context

In May 2023, the IEA launched <u>World Energy Investment 2023</u>, a report that provides a full update on energy investments in 2022 and an initial reading of the emerging picture for 2023. The report provides a global benchmark for tracking capital flows in the energy sector and examines how investors are assessing risks and opportunities across all areas of fuel and electricity supply, critical minerals, efficiency, research and development and energy finance.

The report focuses on some key features of the new investment landscape that are already visible, including the policies now in place that reinforce incentives for clean energy spending, the energy security lens through which many investments are now viewed, widespread cost and inflationary pressures, the major boost in revenues that high fuel prices are bringing to traditional suppliers, and burgeoning expectations in many countries that investments will be aligned with solutions to the climate crisis.

#### Event objectives and format

The main objective of this event will be to present the key findings of the IEA World Energy Investment 2023 report, and to discuss common challenges and opportunities between China and international stakeholders on leveraging investment for a cleaner energy future.

- The workshop is hosted in a hybrid format, with both in-person attendance (registration link: <u>https://wj.qq.com/s2/13111214/0900/</u>) and via the Zoom platform (registration link: <u>https://meetoecd1.zoom.us/webinar/register/WN\_iDli6xxMRCe2QIYSdPOrtw</u>).
- The workshop is intended to be an open conversation between experts and stakeholders.
- Participants can speak Chinese or English, and instantaneous interpretation is provided online.

#### Contacts

Ms Huang Yujun, China Desk Policy Analyst, IEA (<u>yujun huang@iea.org</u>) Ms Ding Yiru, Chief of Staff, Institute of Energy, Peking University (<u>yrd@pku.edu.en</u>) Ms Meng Qi, President's Office Research Fellow, Energy Foundation China (<u>menggi@efchina.org</u>)

## Agenda

	09:30 - 09:40	Welcome and Introduction	
<b>D9:40 – 10:00</b> Report Presentation: World Energy Investment 2023         Tim GOULD, Chief Energy Economist, IEA <b>10:00 – 10:40</b> Roundtable Discussion         Moderator:         XIE Qiuye, Senior Advisor, Electric Power Planning and Engineering Institute         Discussants:         •         •       WANG Yao, Director General, International Institute of Green Finance         •       WANG Shen, Senior Researcher, Founder and President of the Beijing Institute of Finance and Sustainability         •       HUANG Wei, Energy Strategy Officer, Asian Infrastructure Investment Bank         •       LI Peng, Deputy Director, Department of Strategy and Planning, State Power Investment Corporation         •       Emma GORDAN, Energy and Investment Policy Analyst, IEA         Guiding questions:       •         •       Reflections on the report findings: what are the implications for global energy transitions?         •       What are the challenges and opportunities in China's energy investment landscape?         •       What are the latest trends and short-term prospects for China's energy investments domestically and abroad?		YANG Lei, Vice President, Institute of Energy, Peking University	
Tim GOULD, Chief Energy Economist, IEA         0:00 – 10:40       Roundtable Discussion         Moderator:       XIE Qiuye, Senior Advisor, Electric Power Planning and Engineering Institute         Discussants:       • WANG Yao, Director General, International Institute of Green Finance         • WANG Shen, Senior Researcher, Founder and President of the Beijing Institute of Finance and Sustainability         • HUANG Wei, Energy Strategy Officer, Asian Infrastructure Investment Bank         • LI Peng, Deputy Director, Department of Strategy and Planning, State Power Investment Corporation         • Emma GORDAN, Energy and Investment Policy Analyst, IEA         Guiding questions:         • What are the challenges and opportunities in China's energy investment landscape?         • What are the latest trends and short-term prospects for China's energy investments domestically and abroad?		Tim GOULD, Chief Energy Economist, International Energy Agency (IEA)
