

Corrigendum: Global Energy and Climate Model documentation

Issued: 16 December 2022

Link to report: <https://www.iea.org/reports/global-energy-and-climate-model>

The **subtitle in the title page** was updated to “2022 Documentation”.

In **chapter 8.5**, the **description of the oil and gas methane emissions model was updated** to a high-level description and linking to the detailed description in the Global Methane Tracker Documentation.
