Draft Agenda

<p>12h00 12h15 CEST</p>	<p>Opening – A Grand Coalition to Achieve Global Net Zero</p> <p>The IEA will set the scene for the Summit by describing the building blocks in its forthcoming Net Zero Roadmap. The roadmap is a vital foundation for ensuring the world can turn ambitious targets into ambitious, near-term action. Commissioned by the UK COP Presidency, the unprecedented IEA analysis will set out in detail what needs to happen across the global economy to put emissions on a firm path to Net Zero, and in a timescale consistent with keeping the temperature rise below 1.5 degrees.</p> <p>The UK will then briefly set out their agenda for strengthening international collaboration through their COP26 Presidency and beyond.</p>			
<p>12h15 12h45 CEST</p>	<p>Virtual Fireside Conversation with Major Economies</p> <p>An action-oriented conversation among the world’s major economies on achieving global Net Zero, especially how the world can collaborate more effectively.</p>			
<p>12h45 13h45 CEST</p>	<p>Panel 1: Ensuring People-Centred Transitions</p>	<p>Panel 2: Catalysing Near-Term Implementation</p>	<p>Panel 3: Accelerating Technology and Innovation by Sectors</p>	<p>Panel 4: Mobilising Clean Energy Investment</p>
<p>Breakout sessions will be developed and led by members of the IEA family with assistance from the Secretariat.</p>	<p>This session will examine how to put people at the centre of clean energy transitions, addressing employment, equity and inclusion issues. The discussion will be informed by the work of the IEA’s Global Commission on People-Centred Clean Energy Transitions.</p>	<p>This session will explore how to improve the implementation of clean energy transitions across the IEA family. It will examine the mechanisms, institutions and processes that ensure countries have access to effective technical and policy support for developing national energy transition strategies.</p>	<p>This session will consider what fora and institutions are needed to enhance international collaboration within each energy use sector. It will consider what potential coordination gains exist, what sort of collaboration can better access them, and what kind of institutions and fora that requires.</p>	<p>This session will consider how to ensure investment flows are aligned with clean energy goals. It will consider what is needed to strengthen collaboration across the policy and investment communities, and to de-risk renewable finance.</p>
<p>13h45 14h45 CEST</p>	<p>Plenary Session – Toward Glasgow and beyond</p> <p>Breakout group chairs will provide brief conclusions and next steps, including how international clean energy governance can be strengthened.</p> <p>High-level speakers will be invited to reflect on the major priorities for action in the run up to Glasgow and the forthcoming IEA Ministerial, and how to further strengthen international clean energy architecture going into 2022 and beyond.</p>			
<p>14h45 15h00 CEST</p>	<p>Closing remarks</p>
