

Energy Efficiency in Manufacturing SMEs

Domestic and International Experience
in Policy and Program Design

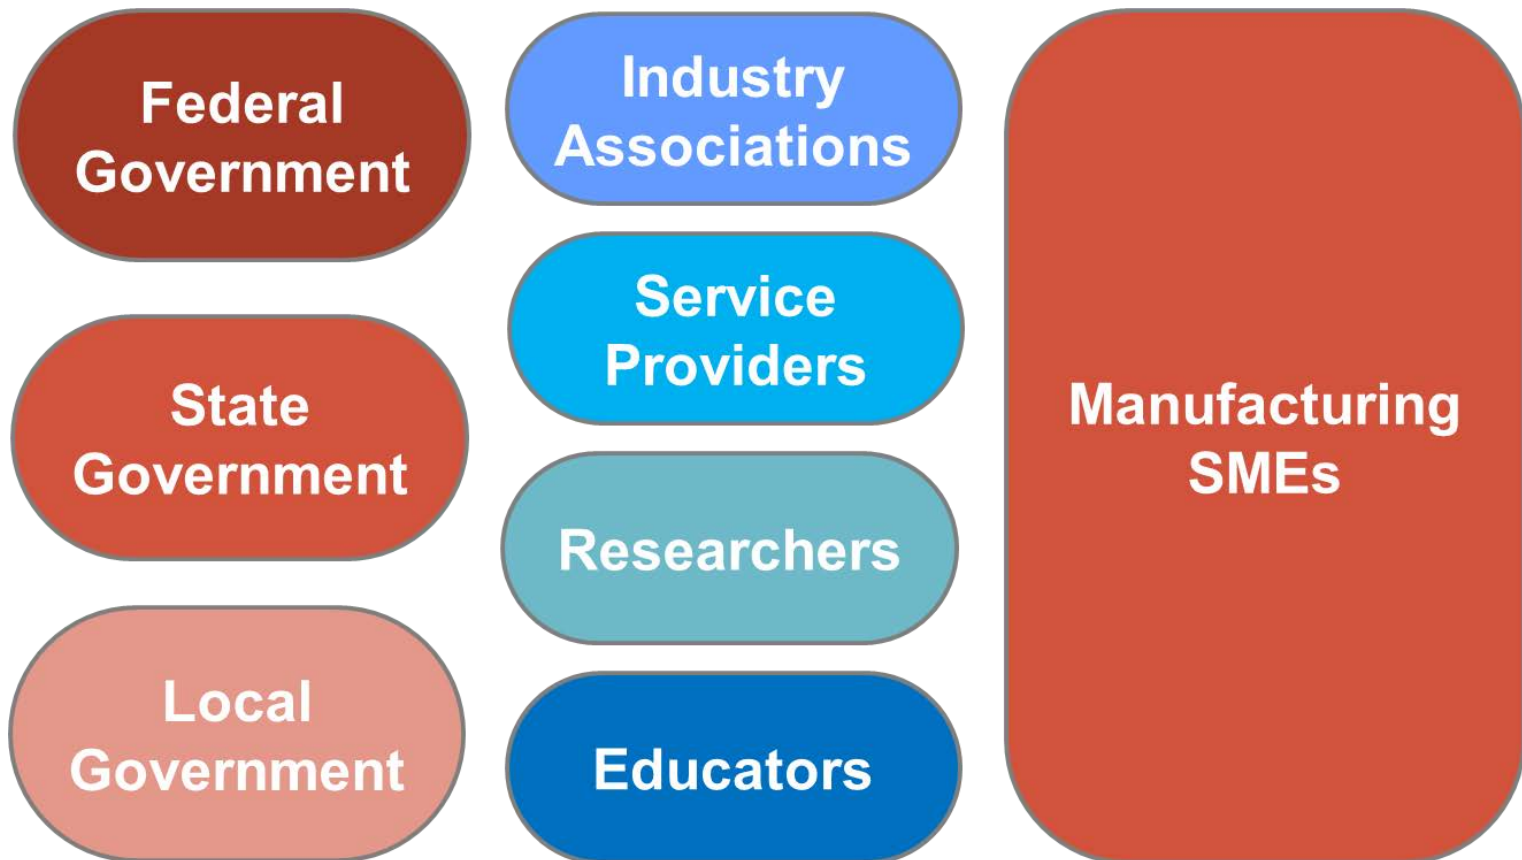

Today's Agenda

- 1. Australian programs – national and state Level**
- 2. Industry association initiatives**
- 3. International perspectives**
- 4. Interactive dialogue and discussion session**

Bringing together a range of perspectives

A few questions we will ask at the end of the workshop ...

- What have you learnt?
- Is there anything that you do differently based on what you have learnt?
- What experience have you shared?
- What networks are you part of/ would you like to be part of to learn about energy efficiency policy and program implementation for manufacturing SMEs?
