

MONDAY, DECEMBER 5TH, 2011

Monday December 5th – CCR Expo (Umdloti room) – Durban	
08:30 – 10:30	MARKET DEVELOPMENT SEMINAR FOR CLEAN ENERGY - <i>Scaled-up market mechanisms: challenges and opportunities for energy policy</i>
<p><i>Scaling up the contribution of the carbon market in delivering mitigation has been the topic of much discussion since the establishment of the Bali Action Plan.</i></p> <p><i>This session will explore how such mechanisms must rest on solid energy policy grounds in order to deliver the expected mitigation and finance; it will also provide examples of barriers and opportunities for new scaled-up market mechanisms to support policies in the energy sector.</i></p>	
Moderator	<i>Mr. B. Diczfalusy, Director of Sustainable Energy Policy and Technology, International Energy Agency (IEA)</i>
8:30 – 8:40	Introduction <i>Mr. B. Diczfalusy, Director of Sustainable Energy Policy and Technology, International Energy Agency (IEA)</i>
8:40 – 10:20	Panellist s <ul style="list-style-type: none"> - <i>Mr. R. Baron, Senior Policy Analyst, Climate Change, International Energy Agency (IEA)</i> - <i>Mr. G. Phillips, Chief Climate Change Officer, Carbon Sindicatum</i> - <i>Mr. K. Jiang, Director, Energy Research Institute (ERI), National Development and Reform Commission, China</i> - <i>Mr. Henry Derwent, Chairman and CEO, IETA</i> - <i>Mr A. Gilder, Director, Sustainable Law Specialists Ltd, South Africa</i> - <i>Mr. G Hodes, Director, Africa Carbon Asset Development, UNEP</i> Discussion
10:20 – 1030	Closing <i>Joan MacNaughton, Alstom Power, World Energy Council</i>

Monday December 5th – CCR Expo (Umdloti room) – Durban

11:00 – 13:00	Meeting the Millennium Development Goals - Financing Energy Access for All
<p><i>Presenting "Financing energy access for all": In the run up to RIO+20 and as a supporting analysis to meet the MDGs the IEA released in October a new study that assess the financing requirements to provide electricity and clean cooking fuels for all the currently deprived. Building on this analysis the event/presentation discusses which financing mechanisms and sources better fit the South African and Sub-Saharan Africa energy sector. The intersection between improved access and reducing emissions is also discussed.</i></p>	
Moderator	<i>Mr. H. O. Ibrekk, Policy Director – Climate Coordinator, Norwegian Agency for Development Cooperation (Norad), Norway</i>
11:00 – 11:10	<p>Introduction & Welcome <i>Honourable Ms. B. Thompson , Deputy Minister, Republic of South Africa Ambassador R. Jones, Deputy Executive Director, IEA</i></p>
11:10 – 11:25	<p>Presentation of the IEA analysis : Financing energy access for all <i>Mr. F. Birol, Chief Economist, International Energy Agency (IEA)</i></p>
11:25 – 12:50	<p>Roundtable discussion</p> <ul style="list-style-type: none"> - <i>Honourable Mr. B. Parthan, Deputy Director General, Renewable Energy and Energy Efficiency Partnership (REEEP)</i> - <i>Mr. M. Takada, Head of the Sustainable Energy Programme at the Environment and Energy Group , United Nations Development Programme (UNDP)</i> - <i>Mr. S. Lennon, Managing Director for Resources and Strategy Division, Eskom</i> - <i>Ms. P. Bardouille, Global Product Specialist, Sustainable Business. Advisory, International Finance Corporation (IFC)</i> - <i>Ms N. Wright, Africa Network Coordinator, ENERGIA International Network on Gender and Sustainable Energy</i> - <i>Mr A. G. Smith, Executive Director, National Economic Development and Labour Council , South Africa</i> - <i>Mr. P. Nussbaumer, Industrial Development Officer, United Nations Industrial Development Organization (UNIDO)</i> - <i>Mr. T. P. Nchocho, Executive Manager, Development Bank of Southern Africa, South Africa</i> - <i>Mr. Brice Quesnel, Senior Carbon Finance, World Bank</i>
12:50 – 13:00	Closing

MONDAY, DECEMBER 5TH, 2011

Monday December 5th – CCR Expo (room) – Durban	
17:30 – 20:00	14. LOCK-IN IN THE ENERGY SECTOR AND COST OF DELAYING ACTION.
<p><i>Past and current investment decision in energy infrastructure are locking in greenhouse gas emissions and contributing to future warming commitment. The World Energy Outlook 2011 for the first time analysis by sector and by country the amount of lock-in and looks into detail how much room of manoeuvre is left for the energy sector to limit temperature increase to 2 C. It also analyses what are the implications of delaying action for advanced and emerging economies in terms of additional costs, technology deployment and investment decisions.</i></p> <p><i>This event discusses the significance of this analysis on climate negotiations and the post-2012 architecture.</i></p>	
Moderator	<i>Mr. A. Steer, Special Climate Change Envoy, World Bank</i>
17:00 – 17:05	Introduction <i>Mr. A. Steer, Special Climate Change Envoy, World Bank</i>
17:05– 17:30	Presentation of the World Energy Outlook <i>Mr. F. Birol, Chief Economist, International Energy Agency (IEA)</i>
17:30 – 18:30	Round table discussion <ul style="list-style-type: none"> - <i>Mr A. Runge-Metzger, Head of Unit Climate Strategy, International Negotiation and Monitoring, of EU Action, DG Environment, European Commission</i> - <i>Mr R. Duke, Deputy Assistant Secretary for Climate Policy, US Department of Energy, United States</i> - <i>Mr. L. Qiang, Energy Research Institute (ERI), China</i> - <i>Ms. L. Srivastava, Executive Director Operations, The Energy and Resources Institute (TERI), India</i> - <i>Mr. W. Barnard, Chief Director, Integrated National Electrification Programme, Department of Energy, Republic of South Africa.</i>
18:30 – 18:55	Question and answer session
18:55 – 19:00	Closing <i>Mr. A. Steer, Special Climate Change Envoy, World Bank</i>
