

EU-China ETS Platform 中欧碳市场对话与合作项目简介

18th IEA-IETA-EPRI Annual Workshop on Greenhouse Gas Emission Trading - Session 5: China's national ETS

Renato Roldao, Project Team Leader
雷纳多·项目主任

OECD Boulogne Conference Centre, Paris, France, 6th November 2018

Project Funded by European Union

EU-China ETS Platform: Where We are?

- Project Funded by European Commission
- Project implementation partners:
 - Project led by ICF in partnership with Sinocarbon, SQ consultant, Ecofys, Stantec
- Project areas of intervention
 - Policy Dialogue;
 - Joint Research;
 - ETS Network;
 - Internships
 - Technical training
 - Industry training on ETS day to day roles and functions

EU-CHINA ETS Platform: Where do we want to go?

- The overall objective:
 - To enhance cooperation with China on climate change
 - Establishing a regular political dialogue on emission trading
 - To increase the mutual understanding of relevant developments affecting the effectiveness and efficiency of emission trading systems in the EU and China
 - To support China in building its national emission trading system including but not limited to:
 - Roadmaps,
 - Allocation,
 - MRV, Registry,
 - Market oversight and
 - trading elements
- Co-benefits: Support the country decarbonisation, clean energy transition and adoption of clean and low carbon technologies

EU-China ETS Platform: How do we get here?

- How can this project keep its importance and relevance throughout the next 2-3 years cycle to best support China?
- Time, Readiness and Flexibility
- Responsive and Demand Driven
- Adaptable to change
- Address new/ emerging needs and priorities
- Helping China to integrate ETS as part of a broader and comprehensive policy mix and as a macro-level objective of economic and industrial reforms and upgrades that are in the making
- Helping China grabbing the co-benefits of ETS
- Supporting the collaboration in the present, but also creating the basis for the future of China ETS with more forward looking and innovative discussions
 - Examples: Sharing experience with China about MSR, auction and use of auction revenues, innovation and modernization funds

Thank You!
非常感谢
