# Ecosystem Marketplace

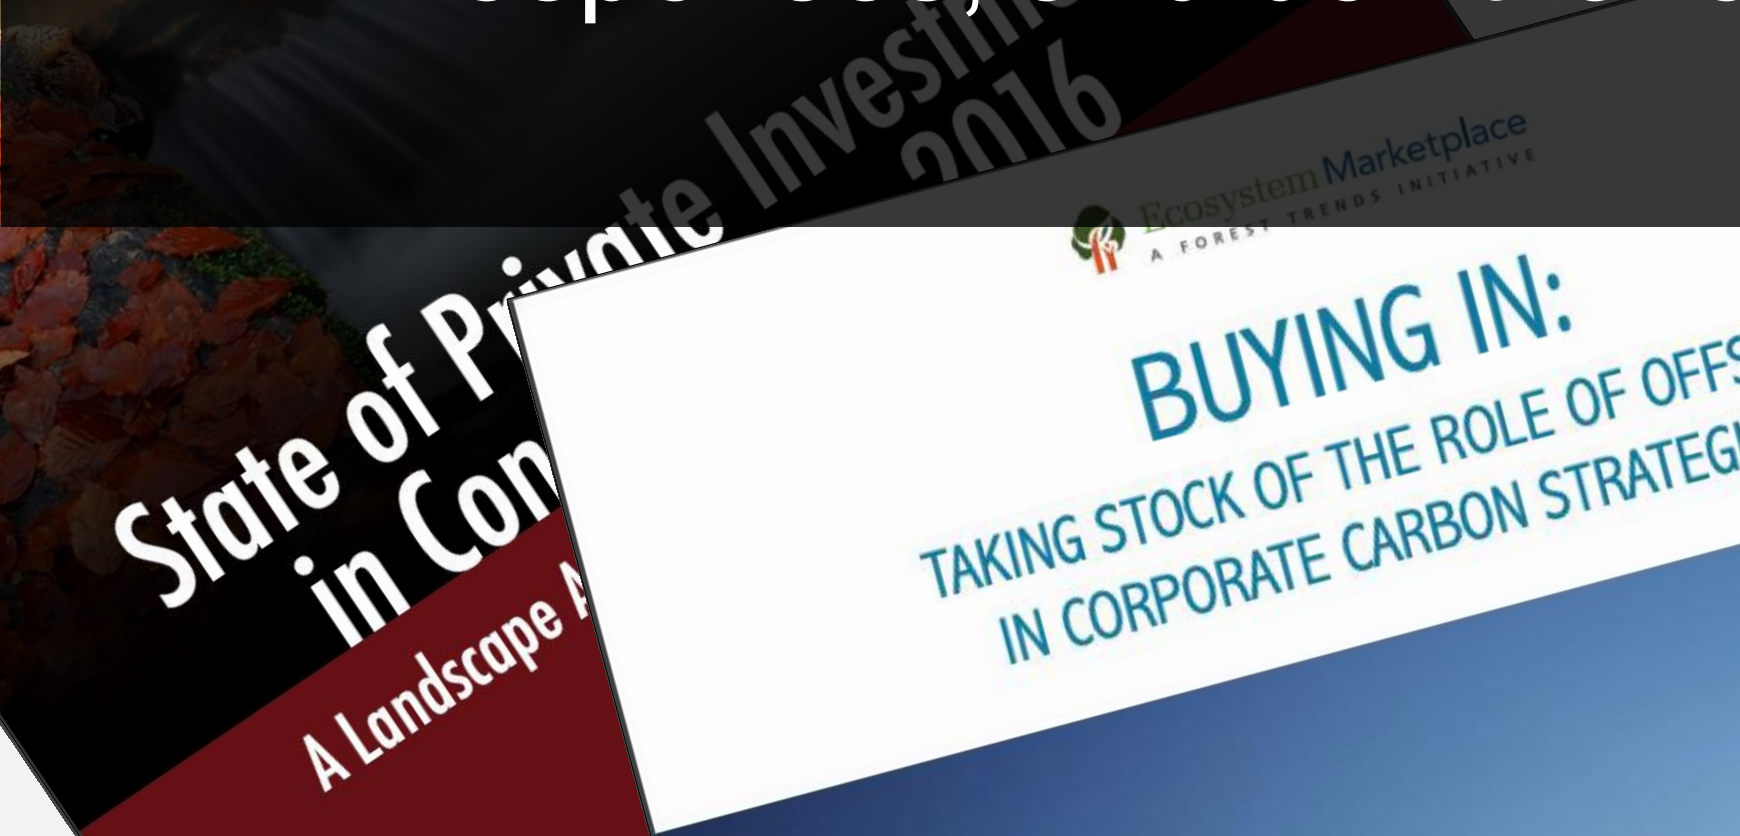

A FOREST TRENDS INITIATIVE

Proven track-record of nearly 15 years. We have a long history of tracking carbon markets beginning in 2006, engaging with stakeholders, collecting confidential data, providing guidance & insights, and advising market participants.

Quality data, analysis, and reports. We generate dependable, decision-useful information for carbon market participants and policymakers worldwide.

Credible, confidential, and neutral. We maintain strict confidentiality of individual responses, and don't favor any specific standards or projects.
