

Agenda: TUESDAY, 27 June 2017

09:15-09:30 *Registration, coffee and pastries*

09:30-10:00 **Introductory remarks: context and objectives for the workshop**

Dave Turk, Head of Energy Environment Division, IEA

Christina Hood, Head of Unit, Environment and Climate Change, IEA

10:00-11:00 **Country experiences with energy-climate policy packages**

Speakers will briefly present on the range of real-world considerations, challenges and contexts that influenced the development and final form of their national energy-climate policy packages.

Moderator: **Christina Hood**, IEA

Speakers: **Santiago Creuheras**, Director General for Energy Efficiency and Sustainability, Ministry of Energy, Mexico

Johannes Schilling, Policy Officer, Energy Policy Coordination Unit, DG Energy, European Commission

Dave Sawyer, Environmental Economist, EnviroEconomics, Canada

11:00-11:30 *Coffee break*

11:30-12:30 **Country experiences with energy-climate policy packages (continued)**

Moderator: **Christina Hood**, IEA

Speakers: **Radhika Khosla**, Fellow, Centre for Policy Research (CPR), India

Wataru Matsumura, Director, Global Environment Partnership Office, Ministry of Economy, Trade and Industry (METI), Japan

12:30-13:30 *Lunch sponsored by IEA (Room George Marshall in the Château)*

-
- 13:30-14:30** **Low to moderate carbon prices in climate-energy policy packages**
This discussion will focus on what role low to moderate carbon prices can play in supporting low-carbon transition, including when and how they may need to be complemented by other policies.
- Moderator:** **Venkata Ramana Putti**, Program Manager Carbon Markets and Innovation, World Bank
- Discussion starters:** **Kurt van Dender**, Head of Unit, Tax and the Environment, OECD
- Christian Flachsland**, Assistant Professor for Climate and Energy Governance, Mercator Research Institute on Global Commons and Climate Change
- Maarten Neelis**, Principal Consultant, Ecofys
- Julien Martin**, Senior Analyst, Électricité de France
- 14:30-15:30** **Balancing short- and long-term policy optimisation**
Optimal policy choices to meet short-term energy and climate objectives might be different from those for longer-term energy transition. How can short- and long-term perspectives be balanced to reduce costs and asset stranding during the transition?
- Moderator:** **Stéphane Hallegatte**, Lead Economist, Climate Change Group, World Bank
- Discussion starters:** **Michael Grubb**, Professor of International Energy and Climate Policy, University College London
- Antonin Vergez**, Head of Global Public Goods Unit, Ministère de la Transition Écologique et Solidaire, France
- David Hone**, Chief Climate Change Advisor, Shell
- 15:30-16:00** *Coffee break*
- 16:00-17:00** **Alignment of energy-climate policy packages**
This session will explore how policies within the energy-climate policy mix can be well aligned among themselves, across jurisdictions, and with other policy objectives (e.g., air quality or development objectives).
- Moderator:** **Felix Matthes**, Research Coordinator for Energy and Climate Policy, Öko Institute
- Discussion starters:** **Emilie Alberola**, Director Industry, Energy and Climate, I4CE
- Fabien Roques**, Executive Vice President, FTI-CL Energy
- Virginie Marchal**, Policy Analyst, OECD
- 17:00-18:00** **Tour de Table: How can IEA help policymakers deliver coherent policy packages?**
- 18:00-19:00** *Reception for all participants (Room George Marshall in the Château)*
