

1.

What is IPEEC?

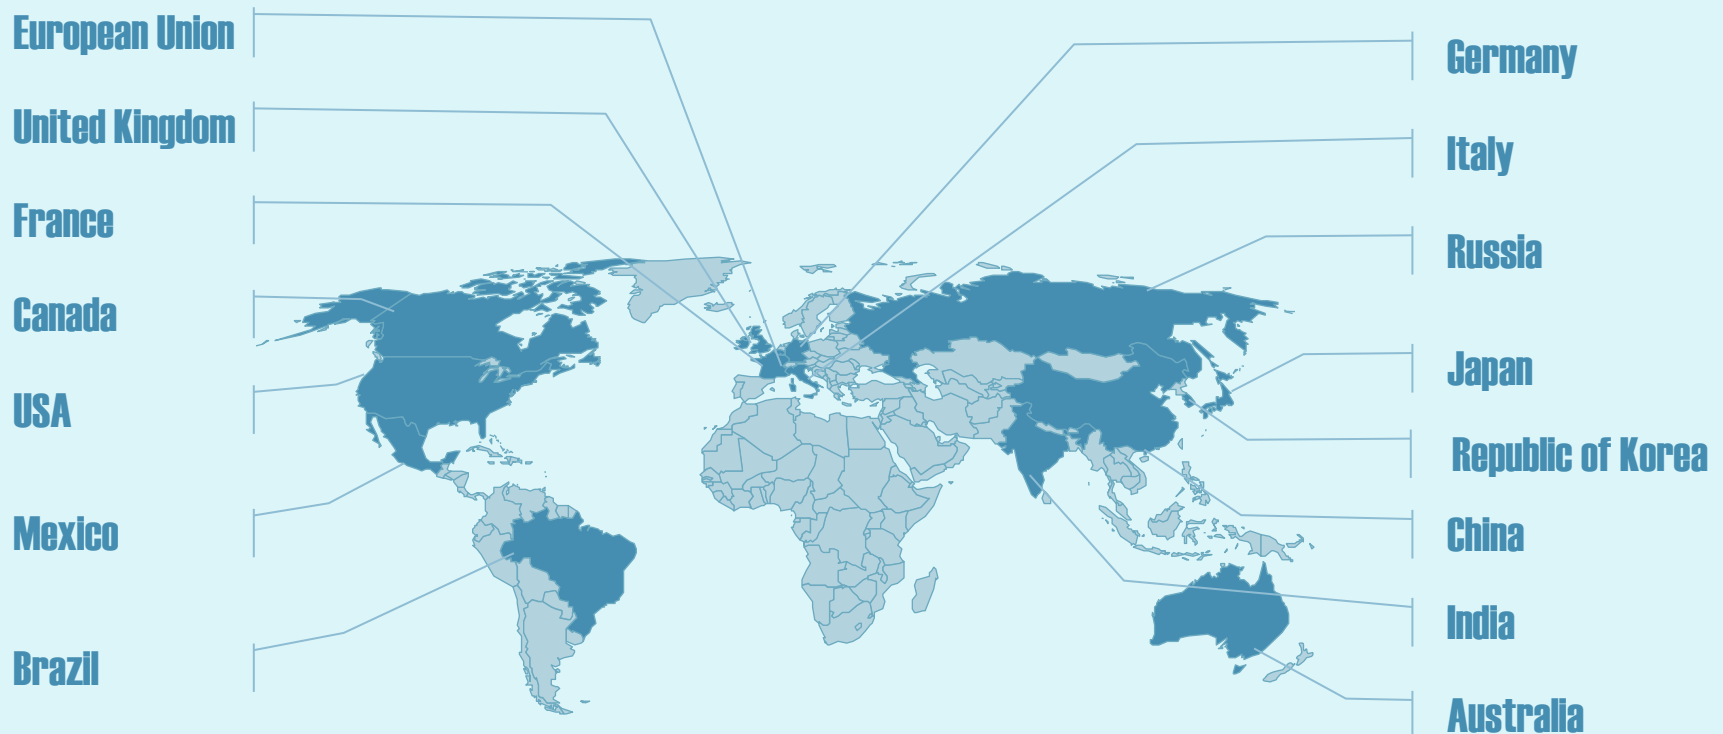

IPEEC: High-level International Forum

- Provides global leadership on energy efficiency by identifying and facilitating government implementation of policies and programs that yield high energy efficiency gains.
- Promotes information exchange on best practices and facilitates initiatives to improve energy efficiency.
- Reports to G20 Summit, Clean Energy Ministerial and others.
- Partners with industry to promote rapid deployment of energy efficient technology.

IPEEC is an Autonomous Entity

Members account for over 75% of world GDP and energy use

Established in 2009 at the G8 summit in L'Aquila, Italy. The **IPEEC Secretariat** is located in Paris, France.

Energy Efficiency:

More Than Just Energy Savings

Government Action to Promote Energy Efficiency

**Sustainable
Development:
Enhanced Energy
Access**

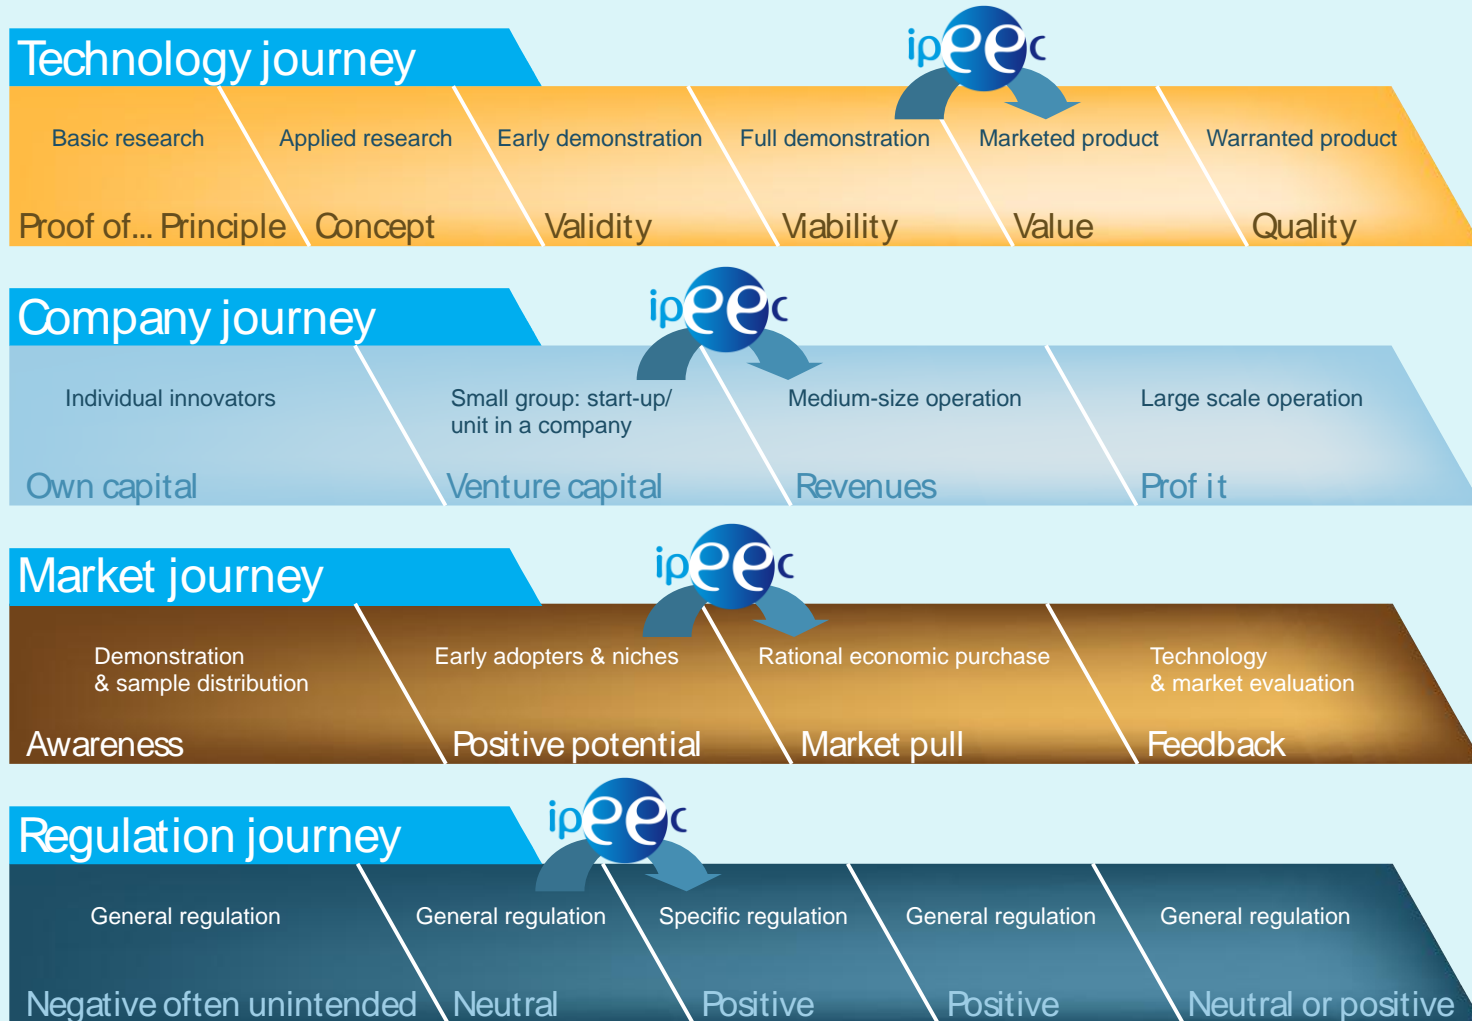

**Climate Change
Mitigation:
Reduced GHG
Emissions**

**Energy
Security:
Reducing
Energy Use**

Low Carbon Economy

- Improved air quality
 - Jobs created
- Lower energy cost

Transition Technologies, Products and Services Follow Parallel Journeys

IPEEC Task Groups: An Integrated Approach

Policy Making/Capacity Building

**EMAK - energy
management**

**WEACT – capacity
building, training**

**IPEEI -
indicators**

**GSEP – energy
performance**

Finance

AEEFM – finance

Industrial Sector

PEPDEE - utilities

EMAK – energy management

GSEP – energy performance

Commercial/ Residential Sector

SEAD - appliances

SBN - buildings
