

# Tracking global progress in CCS deployment

5th IEA International CCS Regulatory Network meeting  
Paris, 18 and 19 June 2013

# Learning from the success of renewables

## CCS: still waiting its cue from governments

260 47

**MtCO<sub>2</sub>/year stored by 2020 in the IEA ETP 2DS**

**MtCO<sub>2</sub>/y projected CCS capacity in 2020**

**6**

*MtCO<sub>2</sub>/year based on 4 projects in operation in 2012*

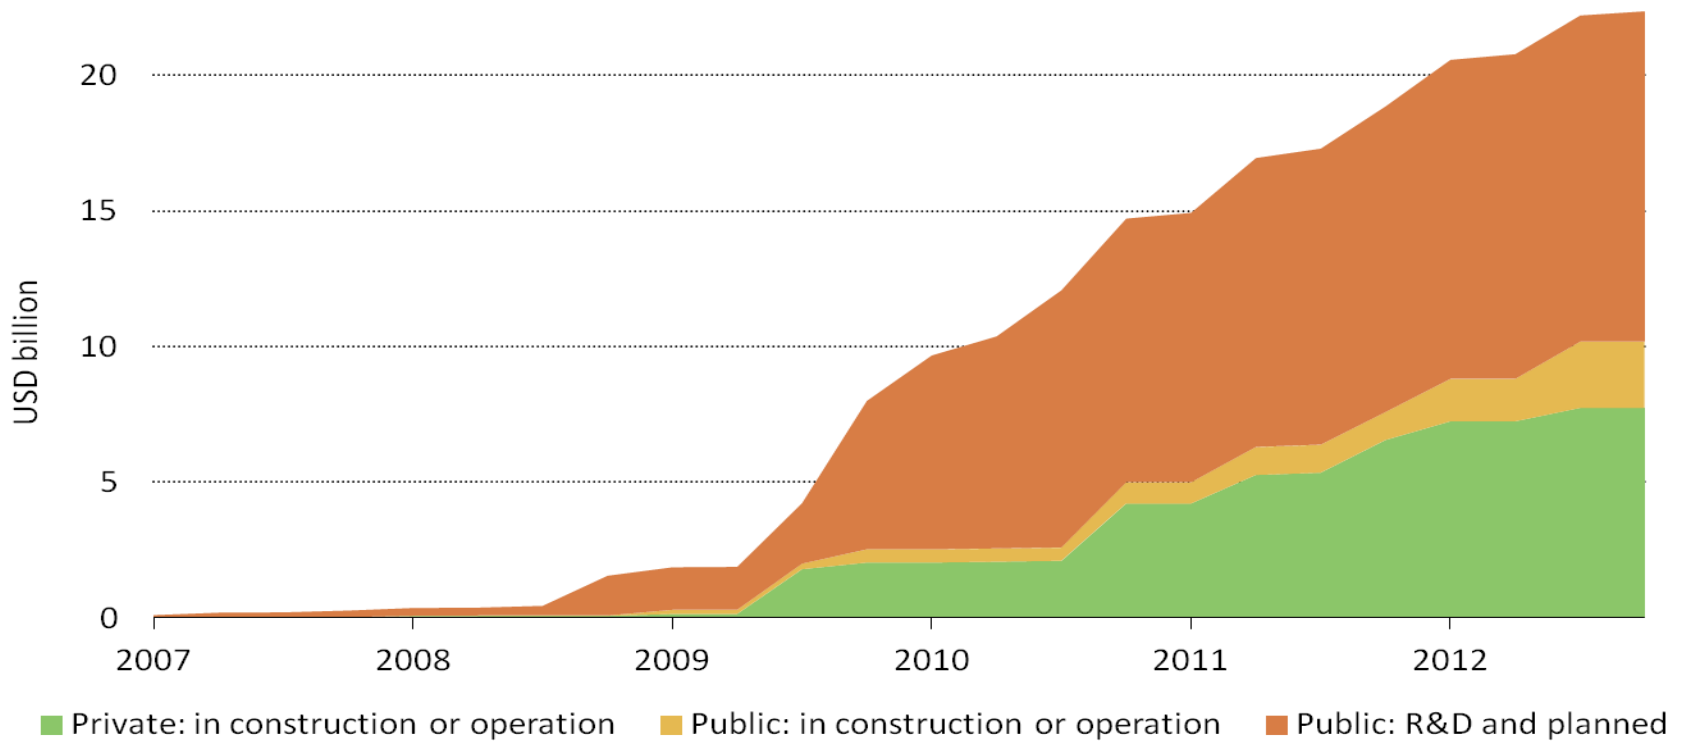

**14**

*MtCO<sub>2</sub>/year based on 9 projects under construction*

**27**

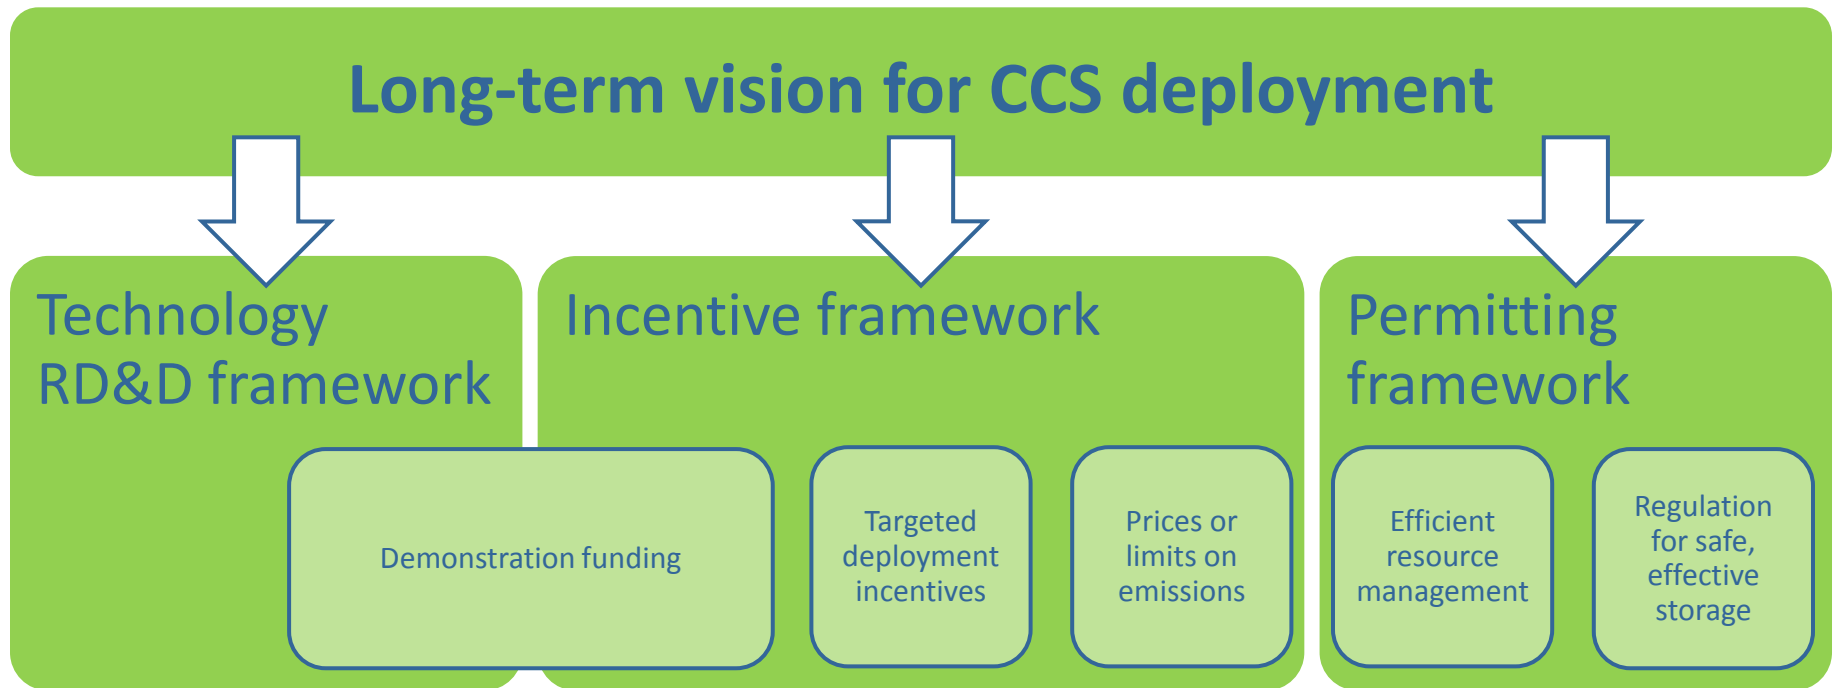

*MtCO<sub>2</sub>/year based on 13 projects in advanced planning*

# Commercial interest in CCS is growing

*Cumulative spending between 2007 and 2012 on projects that demonstrate CCS reached almost USD 10.2 billion*

# What does real policy commitment to CCS look like?

*All parts of the policy puzzle must be in place if CCS is to excel, starting with a clear vision for the future for CCS*
