

Additional suggestions for improving the Policy Pathway on Accelerating energy efficiency in industrial SMEs

Patrick Crittenden

Director, Sustainable Business

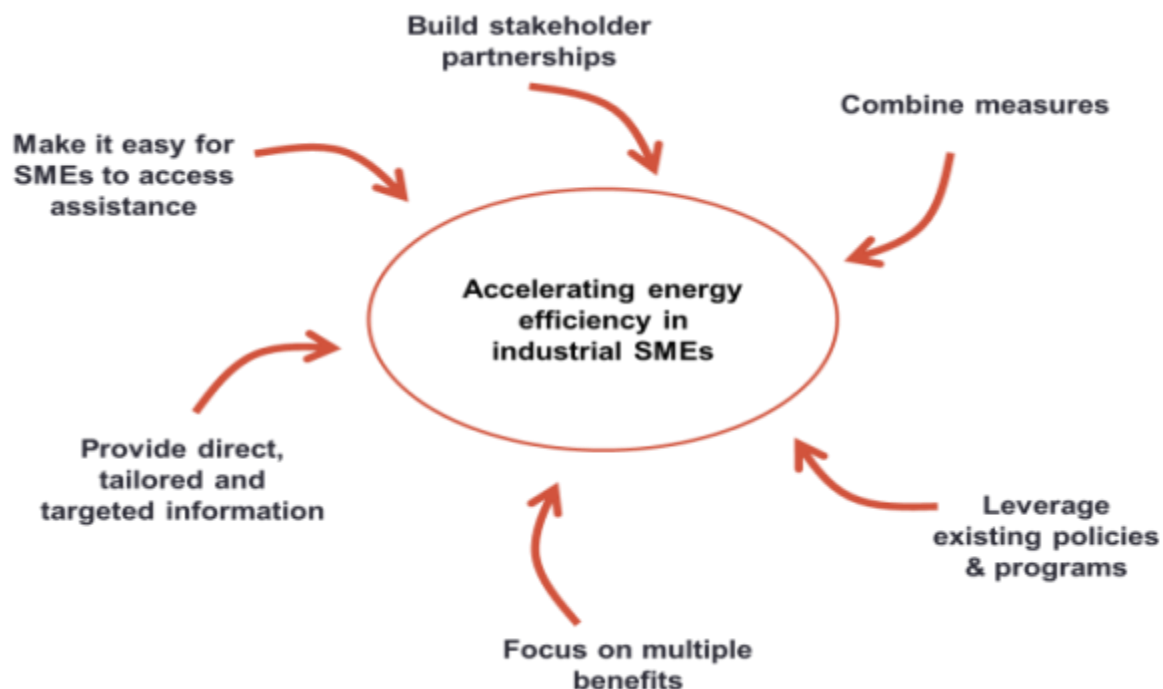

Accelerating energy efficiency in industrial SMEs
Workshop

International Energy Agency Headquarters, Paris

27 November, 2013

What are the key messages highlighted in discussions today?
Do these align with the 6 strategies proposed in the morning session?

What additional suggestions do you have regarding the sections on:

- planning
- implementation
- monitoring
- evaluation

How can additional information on SME programmes that is not captured within the 100 pages of this policy pathway be shared more widely?

What capacity building activities would support broader development of SME energy efficiency programmes?
