

# IEA Energy Efficiency In Emerging Economies Training Week

---

Industry Stream: Exploring the challenges and opportunities of industrial energy efficiency from a policy maker perspective

Patrick Crittenden and Louise Vickery, Jakarta, 16-20 July 2018

 #energyefficientworld

- What you are working on
- One key challenge associated with your policies/programmes
- The unique perspective and experience that you bring to this training

- Limited awareness of the benefits of energy efficiency.
  - Ministers
  - Industry associations
  - Businesses
  - Financial institutions
- Limited skills and experience in the marketplace to deliver energy efficiency products and services
- Difficulties accessing small and medium-sized enterprises
- Limited data
  - Which businesses use the most energy
  - Energy use across industrial sub-sectors

# Opportunities – some perspectives from past training participants

---

- Help Ministers demonstrate their contribution to National Priorities
  - Energy access
  - Energy security
  - Jobs
  - Climate change commitments
- Improve industry competitiveness
