Introductory Roundtable

Patrick Crittenden and Hugo Salamanca

Energy Efficiency Training Week, Industry Stream, Pretoria, South Africa, October 2019

Course objective: Why are we here?

To enhance your ability to

- design
- implement, and
- evaluate energy efficiency policies and programmes for industry.

Training design

- The training is highly interactive and will provide you with an opportunity to share your experiences, to learn from the trainers and to learn from other participants and guest speakers.
- Design features include the use of case studies, a focus on multiple benefits, the application of practical tools and case studies as well as interactive activities.

Link between training content and objectives

Continuing your learning after this training

- We can't cover everything in a few days but we can point you in the direction of further support and resources!

Introductions

Pair up with someone you haven't met yet. Discuss:

- What policies/programmes are working on?
- Describe one key challenge associated with your policies/programmes
- What unique perspective and experience you bring to this training that you can share with others?

Countries represented in the industry stream

Expertise in the room – learning from each other!

- Policy design
- Policy development
- Policy implementation
- Energy auditing
- Training and capacity building
- Evaluation
- Energy management

Logistics

- Discussions and questions
- Interactive exercises and worksheets
- Your role
- Breaks
- Use of phones and computers
- Wi-fi access
- Emergencies
