

# 4b. Review of urban systems and transport

---

John Dulac and Mel Slade

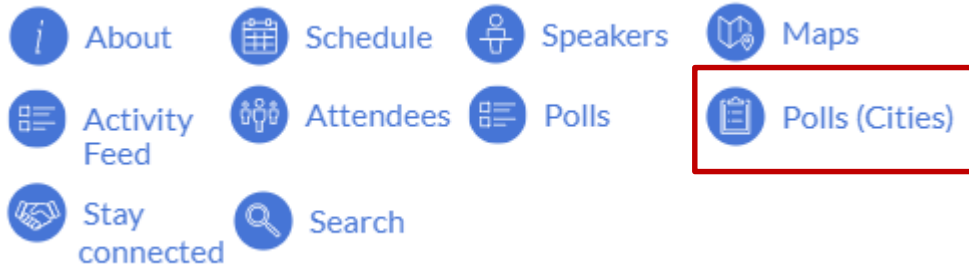

Paris 22 May 2019

IEA #energyefficientworld

- 1. How does urban design affect transport patterns, water use and other activities?**
  
- 2. In what way can you influence urban design?**
  - A. If your municipality is a new one and you are in the planning stage
  - B. If your municipality is still growing
  - C. If your municipality is well developed and densely populated
  
- 3. What are the easy-wins you can do in urban transport efficiency and why?**

## What are the types of barriers to efficiency do you encounter ?
