

Alexandre JEANDEL is corporate senior advisor on sustainable development topics at the GDF SUEZ headquarters.

GDF SUEZ is a world leader in energy and environment, is present from the top to the bottom of the energy chain, in electricity, natural gas, upstream and downstream, in renewable energies, in energy, water and waste management services.

Alexandre has over 25 years of experience in energy sector within Gaz de France then GDF SUEZ. He has worked in different areas: research, marketing & sales and strategy. He was previously in charge of research in the utilization sector, involved in marketing on key-account customers, acted as an innovation manager and elaborated the renewable energy policy of Gaz de France. He is now in charge of Energy Efficiency. He deals with all sectors of concern to GDF SUEZ: like the building sector, power generation or energy services with a focus on business opportunities.
