

# Forging CCS into Reality - a Government's View

Tone Skogen  
Deputy Director General

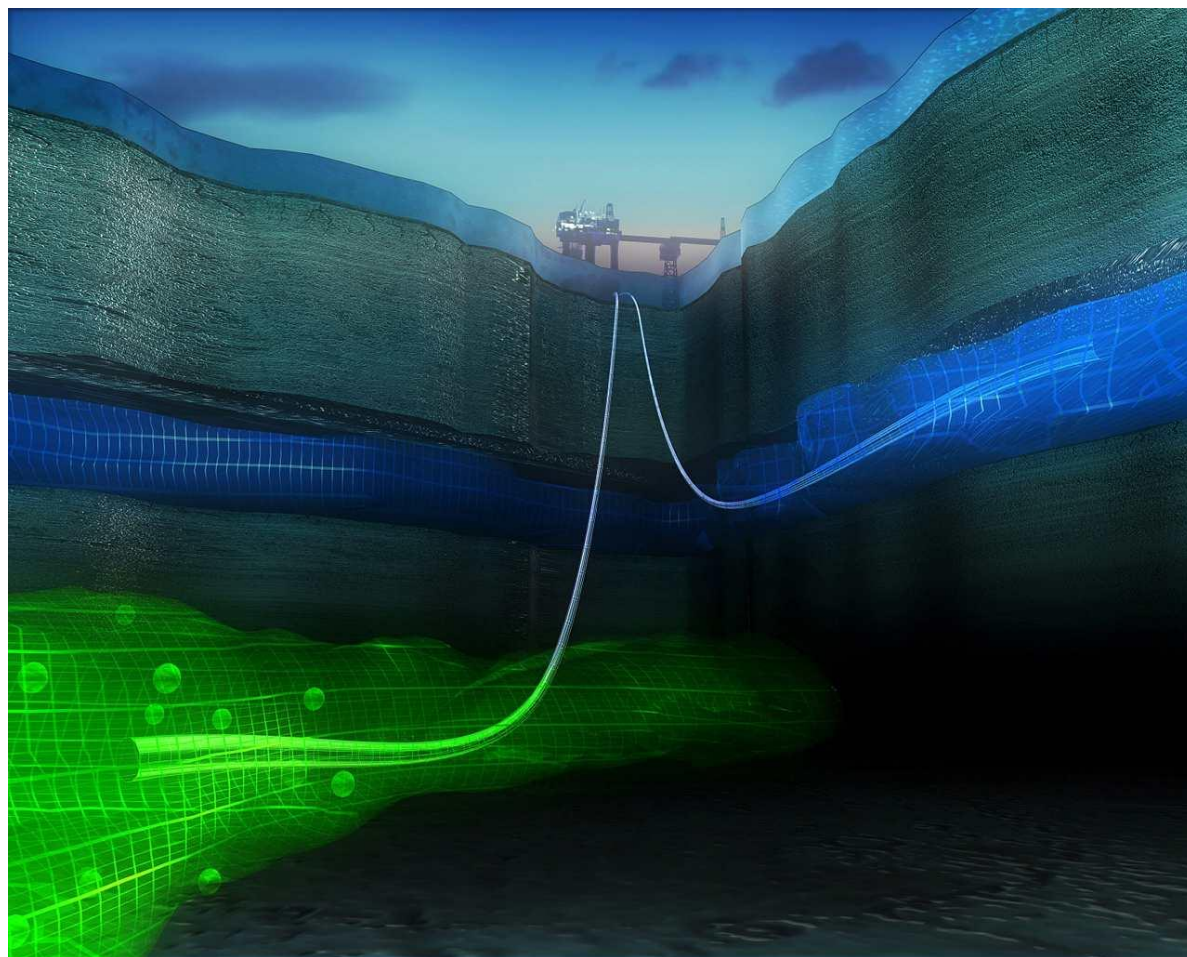

# Political Commitment

- **The Norwegian Government:**
  - **has ambitious Climate Change Policies**
  - has ambitious goals for broad deployment of CCS
  - has decided that all new fossil-fuelled power plants shall be based on CCS
  - facilitates R&D on CCS, cooperates closely with industrial actors and provides public funding

# Norwegian Experience

# Enabling Environment

- Legal Framework
- Remove barriers to deployment
- Create incentives
  - Price on emissions
  - Public funding
- R&DD
- Technology specifications

# Public Private Partnership

- Public funding is needed to realise first large scale projects
- Public-private co-operation essential

# Technology Center Mongstad

# Knowledge-Sharing

- Knowledge-sharing and international co-operation vital to enhance CCS globally
- Will help us avoid making the same mistakes and learn from each others successes
- Does not mean we have to share proprietary information

# Large Industrial Projects Take Time

- More complex than initially envisaged, technically, economically and legally
- To mature suitable storage sites takes time
